

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Together 6 vols., atlas folio, uniformly bound in half morocco extra, gilt edges. Paris, 1816-18

This very interesting publication is undoubtedly the most magnificent work that has issued from the Parisian Press; and will perpetuate the matchless collection which formerly graced the Louvre, combining, as it did, nearly all the excellence of which the various countries on the Continent could boast in painting and sculpture. And although a chain of wonderful events has restored many of the brightest gems of art to their rightful owners, so much of excellence still remains, that the gallery of the Louvre is yet, to the man of taste, the greatest attraction in Paris, and the very circumstance of the dispersion of so many wonderful productions gives additional value to the work which describes them in a collected state.

This work is not a mere collection of Prints. It contains many luminous and masterly dissertations upon the state of the arts in different ages, observations upon the style, excellence, and defects of the various schools of painting; a minute description of every painting, etc., drawn with extreme care and correctness.

W. Pickering, London, 1836
- The above volumes contain a vast number of illustrations, which it would be impossible to duplicate, including a water-color drawing (Eton) by J. H. Montague, and other drawings and pen and ink sketches. Many of the plates are colored, and the majority are in a proof state, and on India Paper. They comprise Portraits, Views, Zoological Plates, etc., etc.
- The INDEX was privately printed (only 50 copies) by the illustrator (William Daniell, Esq.); and at the time it was taken in hand by that gentleman the illustrations were far easier to procure than now, when the market has been drawn upon for such fine copies as those belonging to W. T. Horn, Esq., and Robert Hoe, jr., of this city.
- To quote from the Preface to the Index: "Many a rare tome, obtained after much trouble and expense, has been denuded of its portraits and engravings to enrich this splendid copy, thus greatly enhancing its value by rare gems, which cannot be duplicated, and rendering it a most attractive work. It may well be pronounced THE FINEST COPY KNOWN."
- There are many who will take a very proper exception to this unlimited praise, but at that time (1866) it is very probable that Mr. Daniell had very good reasons for making such a statement.
